High performing and enduring system for calm interiors

The Panorama Folding Door System combines minimalistic design with aesthetic lines. It can accommodate 2, 3, 4, 5, 6, and 7 sashes, with each sash capable of carrying up to 150 kg.

This system is built to withstand outdoor weather conditions and features a concealed drainage system to prevent water ingress. It is designed for low maintenance and provides users with high performance and long-lasting functionality.

Panorama sistem harmonika vrata sa termičkim prekidom spaja minimalistički dizajn i estetske linije. Dostupan je sa 2, 3, 4, 5, 6 ili 7 krila, nosivosti do 150 kg po krilu. Pogodan je za otvore visine do 3 m. Krila se mogu sklapati na jednu stranu, ulevo ili udesno, ili rasporediti na obe strane.

Sistem je otporan na spoljašnje vremenske uslove. Integrisano skriveno odvodnjavanje sprečava prodor vode pri obilnim padavinama, dok jednostavno održavanje obezbeđuje visoke performanse i dugotrajnu funkcionalnost.
